# Where Style Meets Function

1

Our Secure Rotation feature enables you to rotate the viewing tube without strain or mechanical wear while the viewing tube is secured to the stand. Focusable eyepieces provide greater control.

2

Our LP series Semi Plan Achromatic objectives enable you to view an assortment of specimens in sharp contrast and with true color fidelity. Factory pre-centered fixed condenser is a standard.

3

The CxL offers flexibility in illumination. Chose from our efficient 6v20w halogen source or our super bright LED, providing nearly 50,000 hours of operation in the near daylight spectrum.
